

GT TRANSIT

The GT Transit seat incorporates an internal 3-point seat belt system that adjusts automatically to the passenger's height. Developed for adults and children with a height of at least 49"; smaller children require a booster seat.

ELR/ALR switchable seat belt system.

Fold down aisle armrest and fixed at wall side.

Designed and built for more legroom and comfort with thinner seat back.

Cushions, backrests and headrests are made from fire retardant and highly resilient polyurethane foam.

This seat includes our well-known ergonomic design provided in all the Amaya-Astron seat models.

High back seat design.

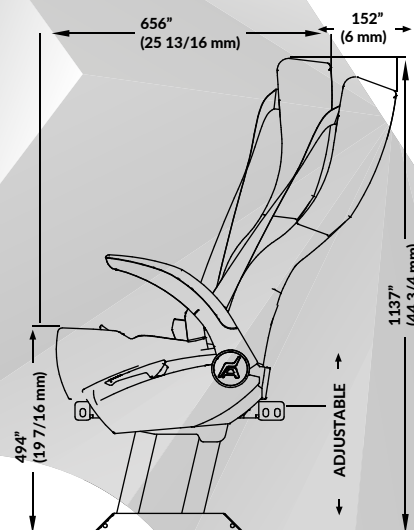

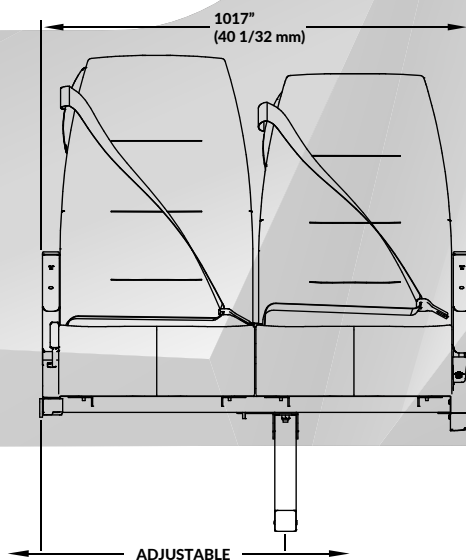

GT model fulfills the Federal Motor Vehicle Safety Standards (FMVSS) for three-point seat belt.

Mechanical recliner mechanism with a 5-year warranty.
